In order to take the entrance exam using remote technologies, you need to have:

- a personal computer or a laptop
- Internet connection
- **Camcorder.**

During testing, the camcorder **must always be turned on**. The system will record all your actions. You shall not move away from the monitor and cover or turn off the camera: the system will notice this and you will be removed from the exam.

To pass the entrance test, you must:

- 1) Comply with the AGREEMENT to take the entrance test in a remote format;
- 2) Move to the examination test and press the button "START VIEWING THE TEST";
- 3) Start the test by clicking the "START AN ATTEMPT" button;
- 4) To finish the test, you MUST press the button "SEND ALL AND COMPLETE THE TEST".

The results of the entrance test will be announced within three working days after passing it. The results can be seen on the university website.

!!! If an applicant violates the rules of the admission test, he/she may be found to have failed the admission test without a valid reason. No further attempts will be granted.
